## **Continuation Sheet (PTOL-303)**

## Application No.

Continuation of 3. NOTE: The proposed amendments raise new issues that would require further searching and/or consideration. Specifically, the proposed amendment includes new limitations in both the apparatus (claim 6) and the method (claim 14) which have not been searched or examined. In proposed claim 6, for example, limitations that require further search and/or consideration are: "the surface being substantially horizontal and in heat conducting contact with the heat element" or "an electrical heating element including a substantially horizontal surface, the sublimable carrier substance is disposed on the substantially horizontal surface". In proposed claim 14, the "adding" step is an example of a new limitaiton requiring further search and/or consideration.
